

**Trypsin Delarco, pH 6.8 (1X)**

<b>Catalog #:</b>	118-150-721	10 x 100mL
	118-150-721EA	100mL
<b>Store at:</b>	-10°C to -20°C	
<b>Shipped at:</b>	on dry ice	

**Description**

Quality Biological's (QBI) Trypsin Delarco, pH 6.8 (1X) is prepared from Trypsin, Disodium EDTA, and Phenol Red using Quality Biological's Dulbecco's Phosphate Buffered Saline without calcium and magnesium. The final product is sterile filtered through a 0.1µm filter.

Trypsin is a proteolytic enzyme used to detach adherent cells from culture vessel surfaces.

**Quality Control***General*

The quality of a product is a combination of careful selection of raw materials, proper manufacturing procedures, and diligent monitoring of each step.

Quality Control is used to determine whether each step in the manufacturing process has been properly carried out and the finished product meets or exceeds the standards established for it.

*Product Specific Testing*

Trypsin Delarco, pH 6.8 (1X) is routinely tested to verify it meets product specifications for the following parameters:

- *pH*
- *Osmolality*
- *Cytotoxicity*
- *Microbiology*
- *Performance*
