

YT Medium (2X)

Catalog #:	340-023-101	500mL
	340-023-101CS	10 x 500mL
	340-023-131	1000mL
	340-023-131CS	10 x 1000mL

Store at:	15°C to 30°C
Shipped at:	ambient temperature

Description

Quality Biological's (QBI) YT Medium (2X) is prepared from reagent grade sodium chloride (NaCl₂), tryptone, and yeast extract using QBI's Cell Culture Grade Water. The final product is sterile filtered through a 0.45 µm filter and sterilized by autoclaving.

Applications

- *Rich medium for the propagation of E. coli strains containing M3 derived vectors.*^{1,3}

Quality Control

General

All Quality Biological products for Molecular Biology are prepared according to standard published protocols.^{1,2}

All products are subjected to a variety of quality control procedures, including pH and osmolality determinations in order to validate the product is within its specifications.

The test results of individual lots of YT Medium (2X) are available on the Quality Biological website.
