

Custom Manufacturing to Your Specifications When an off-the-shelf product just won't do...

Speed your time to market with cell culture media, buffers, and molecular biology reagents for basic research and discovery through pre-clinical studies custom manufactured with unparalleled flexibility and personalized services to meet your unique needs.

Free up your valuable resources and let us help you with:

- Identifying and validating quality raw material suppliers
- Sourcing cost-effective materials with supply reliability
- Assisting with regulatory compliance

Flexibility

Your specific needs are met quickly and with a level of flexibility not found in larger organizations.

40 years delivering custom solutions

We've provided customized options to support our customers' needs since 1983.

As your manufacturing partner, we ensure a successful technology transfer from the laboratory bench to a scale-up process within a commercial production environment.

A Personalized Experience with the Flexibility You Need

We got our start in 1983 manufacturing custom liquid solutions and products for the Life Science industry. Partnering with our customers, we develop their products and scale their manufacturing processes to meet their commercial requirements. We pride ourselves on providing the highest quality products with personalized services and the flexibility you need to to achieve your goals.

Whether you need cell culture media, buffers, or molecular biology reagents for research, pre-clinical studies or product commercialization, we offer you flexible and custom solutions for your outsourcing needs.

Formulations to Your Specifications

- Formulation Development
- Process Development
- Formulation Scaling
- Raw Material Selection & Validation
- Method & Process Validation

Quality

- Analytical testing
- Biological Testing
- Sterility Testing
- Performance Testing
- Custom Testing

Documentation

- Certificates of Analysis
- SDS
- Batch records

Custom Quantities & Packaging

- Quantities from a few liters to hundreds of liters
- Packaging in vials, bottles, carboys, or bioprocessing bags
- OEM packaging of Quality Biological products
